

**Dear Fellow Pediatric  
Oncology Nurses,**

**Expert nursing opinion is often sought for provincial nursing specific initiatives, as well as POGO initiatives. Examples of these initiatives are the development of the Case Coordinator role, Satellite Guidelines, AfterCare Clinic Guidelines, the POGO 10 year plan submitted to the MOHLTC, Safe Handling of Antineoplastic Agents Guidelines, and Telephone Nursing Practice and Symptom Management Guidelines.**

**Please get involved. Your knowledge, ideas and opinions are always valued and welcomed. Please contact any member of the Nursing Committee for more details.**

**Sincerely,  
POGO Nursing Committee**
