

## POGO Research Fellows

**Dr. Furqan Shaikh (2011)**

Research project: *Determining the Predictors of Traumatic Lumbar Punctures in Children with Acute Lymphoblastic Leukemia, and the Feasibility of Ultrasound-Guidance as an Intervention to Reduce their Occurrence*

**Nicole Law (2010)**

Research project: *Cognition, Behaviour, and Affect in Children with Brain Tumors: The Role of Regional White Matter Integrity and Genetic Markers in Predicting Functional Outcome*

**Dr. Amy Lee Chong (2009)**

Research project: *Assessing the Fertility Status of Male Hodgkin's Lymphoma Survivors and Canadian Sperm Banking Practices*

**Dr. Argerie Tsimicalis (2008)**

Research project: *Costs Incurred by Families of Children Newly Diagnosed with Cancer*

**Dr. Jillian Baker (2007)**

Research project: *Influence of Length of Time to Diagnosis and Treatment on the Survival of Children with Acute Lymphoblastic Leukemia and Hodgkin Disease: A Population-Based Study*

**Dr. Talar Hopyan (2006)**

Research project: *Emotion in Music in Children with Cerebellar Tumors*

**Dr. Iris Epstein (2005)**

Research project: *A Summer Camp for Children with Cancer: Campers' Perspectives*

**Dr. Caroline Roncadin (2004)**

Research project: *Neurocognitive Late Effects of Treatment for Acute Leukemia in Children with Down Syndrome*
