## **About CCTU**

As leaders in paediatric healthcare, our goal is to advance paediatric oncology practice. Now in our 12th year, the SickKids Childhood Cancer Therapy Update (CCTU) is a one-day conference that brings together national and international experts to share leading practices and applied science. Our aim is to achieve a thought-provoking, relevant and scientific meeting to advance paediatric oncology care locally, nationally and internationally. The day will include a combination of plenary and workshop sessions.

## **Audience**

Healthcare professionals involved in paediatric cancer care including – Physicians, Nurses, Trainees, Allied Health, Community Practitioners.

Childhood Cancer Therapy Update

## **Objectives**

- Participants will be able to examine and apply the role of reflective practice and narrative in fostering patient-centred care and promoting health care provider resilience.
- Participants will be able to describe the use of haematopoietic stem cell transplantation as a platform for studying new and emerging immunologic and genetic therapies.
- Participants will be able to summarize results from recently completed and goals of currently accruing therapeutic and supportive care trials in childhood cancer.
- Participants will be able to develop a framework to understand the complexities underlying current cancer drug shortages and the impact on patient care.
- Participants will be able to review the evolving field of cancer immunotherapy and identify disease indication for BiTEs, CARs, BiKEs and TriKEs.
- Participants will be able to counsel around healthy active living during and following childhood cancer therapy.
