

Facts about Childhood Cancer in Ontario

Last updated: December 2022

- There are over 4,300 families in Ontario with a child in cancer treatment or follow-up care each year.¹
- There are approximately 500 children and youth diagnosed with cancer in a pediatric cancer program in Ontario each year.¹
- There are over 20,000 childhood cancer survivors living in Ontario.²
- Over 80% of children diagnosed with cancer in Ontario will survive.¹
- Cancer remains the most common cause of disease-related deaths among children in Ontario over the age of 1 year.²

About POGO

Pediatric Oncology Group of Ontario (POGO) works to ensure that everyone affected by childhood cancer has access to the best care and support. We partner to achieve an excellent childhood cancer care system for children, youth, their families, survivors and healthcare teams in Ontario and beyond. POGO champions childhood cancer care, and as the collective voice of this community, is the official advisor to Ontario's Ministry of Health on children's cancer control and treatment. POGO is a non-profit organization with charitable status, here for kids with cancer, for now, for life.
