Are You a Childhood Cancer Survivor?

YOUR HEALTH MATTERS

Monitor your health at a POGO AfterCare Clinic

POGO

About POGO AfterCare Clinics

All survivors of childhood cancer who have been off treatment for two years or more may be eligible to attend a POGO AfterCare Clinic.

POGO's Provincial Pediatric Oncology AfterCare Program is designed to provide childhood cancer survivors with:

POGO
PEDIATRIC ONCOLOGY GROUP OF ONTARIO
FOR KIDS WITH CANCER
FOR NOW, FOR LIFE.

- Regular contact with caregivers who understand your cancer and its treatment.
- Early detection of any late effects.
- Access to information about cancer survival.

Attending just one annual appointment could reduce the long-term effects of treatment and help you to stay healthy.
